SUMMARY

Aspiring Software Engineer with hands-on internship experience building and shipping production-grade web applications, eager to contribute to projects that create real value and solve meaningful challenges. Built AI-integrated products, filed an IoT patent, and placed **Top 10** in a national hackathon. Seeking a full-time role that inspires creativity, collaboration, and growth.

PROFESSIONAL EXPERIENCE

Small Fare Services Pvt. Ltd.

Feb 2026 – May 2026

Frontend Developer Intern

Remote

- Built and maintained responsive web pages using **React.js** and **JavaScript (ES6+)**, converted **Figma** designs into working web pages, and created reusable UI components that helped the team build faster and write less code.
- Worked with a cross-functional team to build and ship new website features, making sure they worked across all browsers and devices with a clean, consistent look.
- Tested and debugged the UI across multiple browsers and devices, found and fixed layout issues to keep the visual quality and performance consistent across all platforms.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+)
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js
Databases: MySQL, MongoDB, Supabase
Dev Tools: Git, GitHub, VS Code, Eclipse IDE, Postman

PROJECTS

WealthMind — AI-Powered Personal Finance Management Platform

Tech Stack: Next.js, React.js, JavaScript (ES6+), Supabase, Google Gemini AI API, Tailwind CSS, Prisma ORM

- Built a production-ready, full-stack personal finance web application with AI-powered expense tracking; integrated **Google Gemini AI API** for automated transaction categorisation, achieving **90%+ accuracy** across diverse expense types.
- Designed a fully responsive analytics dashboard with real-time data visualisation via interactive charts, delivering insights for expense trends, budget utilisation, and investment performance across desktop and mobile.
- Built a secure user authentication system and automated email notifications for budget alerts and financial milestone tracking.

EDUCATION

CMR Institute of Technology

Nov 2022 – Jul 2026

Bachelor of Engineering — Information Science and Engineering

Bangalore, India

AWARDS & ACHIEVEMENTS

- **Patent Applicant** — Filed a patent for an IoT-based system enabling real-time tamper detection and secure package delivery monitoring, demonstrating applied research in embedded systems and hardware-software integration.
- **Top 10 Finish** — Ranked in the **Top 10 out of 100+ teams** at the **IMPULSE 2024** national-level hackathon, recognised for technical innovation and solution design under pressure.

HACKATHONS & CERTIFICATIONS

- **Frontend Battle 2.0 — IIT Bhubaneswar:** Competed in a high-intensity frontend challenge, building performant and responsive interfaces within strict time constraints.
- **MSME IDEA Hackathon 4.0 & 5.0:** Participated in government-backed hackathons delivering innovative technology solutions for MSME sector challenges across two consecutive editions.
- **Build Your Generative AI Productivity Skills** (Microsoft & LinkedIn): Certified in generative AI tooling, prompt engineering fundamentals, and AI-augmented productivity workflows.
